WW ENGINEERING & SCIENCE, INC.  
SHIPPING COORDINATOR: LIZ UHL (616) 942-9600

Jan, I would like to confirm the sampling of 5 low soil samples for the week of November 2, 1992. The number of samples is somewhat less than what I had projected in my monthly sample projection.

The samples will be analyzed for RAS organics and RAS inorganics.

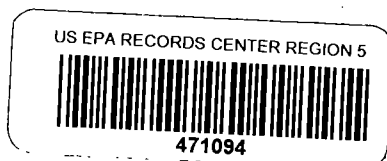

There is a possibility that they may not be collected due to delay in the drilling task. Rick Trippel of our office will call you on Friday, October 30, 1992 to update you further, as I will be out of the office.

Thank you for your attention in this matter.
